Tools: Team Foundation Server (TFS) 2010/ 2012/2013, Subversion, Biztalk Server 2004, BMC Bladelogic 8.3, WinRunner 7.0, LoadRunner 6.5, TestDirector 6.0., Quick TestPro, Visual Studio.Net, Visual Interdev 6.0, Visual SourceSafe (VSS), ClearCase, GitHub, Rally, Nexus Repository, MS Office (Excel, Outlook, PowerPoint, Visio, Word), MS SharePoint.

PROFESSIONAL EXPERIENCE

ASSETMARK INC (THROUGH SIMPLEX INFO SYSTEMS, INC.), Concord, CA

Sr. Build Release Engineer, 04/2015 - Present

Technical Scope: ASP.NET, VB.NET, MSBuild, MSDeploy, Powershell, Vbscript, TFS, IIS, Chef, Bamboo, Git, Nexus, Ruby, Maven, Linux,

Automated CI and CD process and release infrastructure for EWealthManager applications. Maintained and enhanced the Powershell and Msbuild scripts. Work with the various Agile development teams to standardize branching and tagging of code in our TFS and Git repository and maintain code base integrity. Engaged in managing daily builds, configuration, and environment maintenance across multiple test and production environments in an Agile sprint lifecycle. Integrated Selenium regression test modules with Cucumber reporting into the CI framework. Administer MS Team Foundation Server (TFS 2012/2013). Create scripts and automations to streamline development, build, testing, defect tracking, debugging, and deployment of .NET and Java applications and reporting mechanisms. Extensively used Chef, TFS, Bamboo & Ruby for Continuous Integration.
